

## MCB JOURNAL CLUB

**COURSE DIRECTOR:** Susan R. Haynes, Ph.D., Department of Biochemistry and Molecular Biology  
**COURSE DESCRIPTION:** MCB Journal Club meets once a week for one hour during Fall, Winter and Spring Quarters. The purpose of Journal Club is twofold: (1) to learn how to read and critically analyze the primary scientific literature and (2) to gain experience in presenting a research talk to a diverse audience. Each student gives 2 presentations per year, at least one of which must be a journal article. Senior students may choose to discuss their own research for the second presentation.

**PRESENTATION SCHEDULE:** January - May, 2003
