

REA Date Stamp

USUHS FORM 7900
USE OF COMPUTER RESOURCES

Protocol No.: _____

Principal Investigator: _____

Department: _____ **Phone** _____

Project Title: _____

1. **Will this project involve installation of a new software product on the central computers (VAX or DEC Alpha) or Novell LAN file servers ?**
 - 1a. **What is the name of the software product?**
 - 1b. **What is the estimated cost of this product?**
 - 1c. **What operating system is required by this product? (OpenVMS, Novell, Windows for Workgroups, etc.)**
 - 1d. **How much disk space is required by the product?**
 - 1e. **How much disk space will be required by the data files?**
 - 1f. **Please attach a copy of all technical literature regarding this software product.**

2. **Will this project involve use of existing software on the central computers or Novell LAN file servers ?**
 - 2a. **Which software product(s) will be used? (Example: SAS, SPSS, GCG, etc.)**
 - 2b. **How much disk space will be required by the data sets?**

3. **Will this project use PC's/workstations connected to the USUHS Ethernet network?**
 - 3a. **How many systems will be used?**
 - 3b. **Are the required systems currently connected?**
 - 3c. **How many additional systems will need to be connected?**
 - 3d. **Will this project require access to the internet?**
 - 3e. **What types of applications will the network be used for? (Example: file and print sharing, text transfer, imaging, communications, WWW, etc.)**

- 4. Will this project require any special telecommunications support?**
- 4a. Will any additional telephones be required?
 - 4b. Will support be required for special applications such as video teleconferencing or ISDN?
- 5. Will any ADP resources (PC's, workstations, software, telecommunications hardware, etc) totaling in excess of \$5000.00 need to be procured?**
- 5a. Provide a list of the hardware, software, and estimated cost of each.
 - 5b. Any ADP equipment, to be purchased with grant money but not specifically identified in an approved protocol will require a written justification on file in the UIS. Samples of the Small and Abbreviated System Decision Paper formats are available in the UIS.
- 6. Will this project be using or generating data/information that would be considered privacy act? If so, how will this information be used and handled to ensure compliance with the privacy act?**
